## BETHEL INN & COUNTRY CLUB CELEBRATING 70th ANNIVERSARY THIS YEAR

The Bethel Inn & Country Club, a local inn rich in history, is celebrating its 70th anniversary this year and wants to share its heritage with the community.

General Manager Ray Moran and Assistant Manager Gretchen Davidson are working closely with Chef Bruce Goodrich, in the planning of several events focusing on, among other things, the Inn's fine cuisine. Among the events planned is a "kick-off" week (April 15-22) where local residents can sample some of the Inn's fine cooking at a special anniversary sale. Also planned is a special gathering slated for early July, both for the general public and country club members.

Through the years guests from all over the country have made the Inn a home away from home and many return, summer and winter, to the solitude and beauty of the foothills of the White Mountains of Maine.

Known originally as the Prospect Hotel until fire brought the structure down in 1911, the Inn was rebuilt and reopened in 1913. Credited with the development and construction of the Bethel Inn was Dr. John George Gehring, a physician whose forte was the treatment of patients suffering from nervous disorders and exhaustion. Many of Dr. Gehring's patients were from the uppermost ranks of the professional and business community.

## BETHEL HEALTH CENTER TRUSTEES RECRUITING ADDITIONAL PHYSICIAN

The Board of Trustees of the Bethel Area Health Center is pleased to announce that it is actively recruiting another physician to join the medical team at the Health Center within the next few months. The decision to add another physician was made after careful evaluation of the Center's practice and study of its future goals and objectives. The major reasons for adding another physician are to broaden the Center's services, increase patient registry, offer more office hour availability as well as an active hospital practice and to further insure having health providers who will permanently settle in the Bethel area.

The Physician Recruitment Committee is being headed up by Ted Davis of Bethel. According to Mr. Davis, there have been a number of physicians who have expressed interest in working at the Health Center. Both the trustees and staff are working together to interview and ultimately decide on the best individual to join the present Health Center staff. Mr. Davis would welcome input from community residents with regard to what they, the community, might desire in a physician. Please feel free to express your views.

## NEWTON & TEBBETS EMPLOYEE RETIREES — A retirement party was held for Ruth Walker Gilbert during an extended lunch break at the Newton & Tebbets mill in West Bethel last Friday. Roy Newton presented Mrs. Gilbert with a watch in recognition of her long and faithful service. She is the last employee to have worked in the old mill which burned in the fall of 1955. Her fellow workers presented her a set of lawn chairs and the refreshment table featured a decorated cake made by Sally Deegan Smith. Mrs. Gilbert worked at the mill in 1944-45 and from 1955 to the present time, except during the construction of the new mill, making a total of 29 years. Pictured above is Mr. Newton presenting the watch to Mrs. Gilbert as her husband, Arthur, looks on.

B.E.A.R.S. Commended

Through the alert and professional emergency response by the B.E.A.R.S. at the scene and the quick transportation of a stabbing victim recently, a life was saved, according to the physician in attendance at the hospital emergency room. The doctor commended the B.E.A.R.S. in a letter and the Board of Selectmen, adding a note of praise, formally transmitted the commendation to the B.E.A.R.S. In the words of the Board's transmittal, "there is nothing quite so eloquent as saving a human life; words only cloud the deed. We simply add our sincere thanks."

## New Owners at Locke Mills Food Center

Friday, April 1, marked a change in the ownership of the Locke Mills Food Center as Peter C. and Patricia L. Calliornas, formerly of Scarborough, acquired the establishment from Raymond T. and Alita M. Prada.

The new owners look forward to serving the food needs of families in western Maine, meeting the local residents, continuing the services provided and improving the business. Among planned improvements are an expansion of business hours and renovations which will include the addition of a luncheonette, Peter and Patricia plan that a formal Grand Opening will take place in May.

Mr. Calliornas enthusiastically assumes this new venture, having held prior management responsibilities with Consumer Value Stores and Pizza Hut Corporation. Previously, he has also been involved as an owner and manager in such areas as the restaurant and grocery business.

The background of Mrs. Calliornas (the former Patricia Lizotte), includes many years as a professional educator in the public schools. Having taught for eight years at Oxford Hills High School, she looks forward to returning to the western Maine community.

## MEDICAL STUDENT AT BETHEL HEALTH CENTER

The Bethel Area Health Center is pleased to announce that from April 4th-29th they will have medical student Connie Kreiss at the Center.

Connie is a medical student from Yale Medical School in New Haven, Conn. She will finish school in May of 1984 and plans to do residency training in family practice, hopefully in New England. She did undergraduate work at Radcliffe in social studies and then worked as a volunteer in East Africa for five years before starting medical school. She is in Bethel with her husband and baby son and finds her spare moments are filled with her family and studies.

Connie and husband are interested in moving to Maine when she starts her family practice.

## Sunday River

— Jeannine Fleet, Corres. —

Mrs. Mary Morin went to Warren to visit her mother, Mrs. Enid Ramsey, over the week end.

Mrs. Jeannine Fleet and Penny and Mrs. Mary Morin, were in Lewiston Thursday on business.

Mrs. Julie Day was in Lewiston to take her motorcycle to the shop for a check-up.

Mr. and Mrs. Cliff Jackson of Hartford, Conn., spent Easter week end with Mr. and Mrs. Gary Roshko.

Mr. and Mrs. Fred Johnson and Brad, Lisbon Falls, called on Mr. and Mrs. Charles Harthorne, Easter week end.

Mr. and Mrs. Gabe Harrington, Brad and Penny Fleet, Mr. and Mrs. Ralph Harrington and children had Easter dinner with Mrs. Maude Harrington.

Mrs. Barbara Yates and Eva attended a baby shower at Mrs. Viva Whitman's for Viva's daughter. Had a good time out and she received real nice gifts.

Sent in by Viva Whitman:

A rainy morning again this Monday. It reminds me of the rain we had a week ago, when I was in Lewiston. Had stayed overnight with my daughter, in order to keep an appointment on Monday forenoon. Got home in the afternoon. It was still raining in Lewiston when we left, but was just a slight drizzle here in Bethel. Also, the rain hadn't taken the snow off up here, as it had in Lewiston. Got here to find Russell hard at work in the barn.

Didn't see much sun on Tuesday either, and it got cold and windy. It felt as though the house could go flying away in the air, as Dorothy's did in the "Wizard of Oz". Can't say I like the wind blowing. It keeps me awake, when it howls around the corner of the house.

Been doing a little sewing for my daughter, as I was giving her a baby shower April 3.

Verna Swan from Bryant Pond stopped by for a minute on Wednesday, but couldn't stay. She just stopped to give us a message.

As Thursday turned out to be a good day, I did a little cleaning around the house, before having to go to Fryeburg to keep an appointment. Russell and I went a little early and had lunch at the restaurant there. It was open this time, and we had a good meal.

We stopped in town and did a little shopping when we got back to Bethel. That evening, Russell, Peggy and I went to Telstar to hear the "Air Force Band of New England" give their concert. It was very nice, and one certainly

didn't have to strain their ears to hear it.

Didn't do much on Friday. Guess I was just lazy, and couldn't seem to get started on anything. Peggy made a cake when she got home from work, and on Saturday, decorated it for the baby shower, to be held on Sunday for my daughter, Wynona Woolf. She did a beautiful job as usual.

In the evening, Russell, Peggy and I went to Grange at Rumford Center, where Russell had been asked to be Secretary, it being Gentlemen's night. It is quite a job to keep up with all the doings in a meeting and get everything written down, but Russell does a good job. I couldn't begin to do it as well. However, it was a long meeting, so didn't get home much before midnight.

Got up Sunday to a cloudy day. Peggy went to do the wash, but found the laundromat closed, so came back for a while, then went to West Bethel to her daughter, Letitia Merrill's for a while to visit. Rusty was home for the week end, and she wanted to see him as he doesn't expect to get home again until his school closes.

I had invited my daughter, Wynona, and husband, Michael Woolf, of Lewiston to come have Easter dinner with us, so got started in plenty of time preparing it. Had a baby shower planned for her in the afternoon, and knowing I couldn't surprise her no matter what I did, we just waited for the guests to arrive and then put out the gifts to be given. She got a lot of nice things and all are useful, when there is a new baby coming.

Those attending the baby shower were: Laura Hutchins, East Andover; Lorene Cobb and daughters, Mandy and new baby Calla, Bryant Pond; Helen Strout, Oxford; Frances Adams and daughter, Karen, Sweden; Barbara Yates and granddaughter, Eva, Sunday River; and of course, Russell, Peggy and I, as well as the proud parents to be, Wynona and Michael Woolf of Lewiston. A number of people, who couldn't come, sent gifts, so all in all we had a good party. Kenneth Whitman stopped for a few minutes with a gift from the family, as his wife couldn't attend. They are from Norway. Also Wendell, Viola and Toby Whitman, Norway, called with a gift. Didn't stay long, but glad they came.

I think all, who came, enjoyed the refreshments, including the lovely cake Peggy had made. It was so appropriately decorated for the occasion.

Had a nice visit from Juanita Haines of West Bethel, in the ev-

## Greenwood City

— Mrs. Colista Morgan, Corres. —

Most days this week have worn a scowl but Thursday was sunny. The clouds were torn apart into great windows but looked back into blue phantom gardens.

I decided to make the best of it and took a two mile walk.

The sun shone on the newest snow and the snow flashed back sequins. The old goldenrod and weed stalks stood against the whiteness. The icicles had returned to the ledges and glistened in the sun.

I started out solemn as an owl thinking, "Why snow again?" But I found as I walked a new joy in it all.

In a short time I came to the place where the pussy willows grow. Alders and willows grew side by side. From somewhere among them there came the running trails and jingles of a few birds; a touch of spring bringing new life to my surroundings.

There was a fringe of brown grasses, and little pools which glistened like jewels as they lay before me. So from this place I could not reach pussy willows. I crossed the road and soon found some that were obtainable. I picked a few.

By Turtle Bridge the stream of water whispered its way beneath the logs and on to the swamp.

Some may not hear the singing but one other who had followed trails knew its glory as I do.

Looking forward to spring is morale building. March and April are rich with signs. There is a promise not found before, sound of trickling water to take down

— evening. She hadn't been able to attend the party either and had brought a gift. We enjoyed her visit very much, as we hadn't seen her in a some time.

We have enjoyed many birds this week. Here have been a number of Red Winged Black Birds, Starlings, Grackles, Juncos, Sparrows and our regular flock of Mourning Doves and Chick-a-Dees.

A new visitor was a Nuthatch. I mustn't forget the many Bluejays, or the Woodpecker that has become a regular visitor. Oh yes, there are times when we have a flock of Grosbeaks too. Our Red and Grey Sparrows mix in with all the birds to get a portion of the goodies Russell puts out, so we have quite a lot of fun watching all the goings on outside. Still have the long headed Chick-a-dee hanging on. It looked as though his beak was a mite shorter yesterday, so perhaps he will get along better now.

drifts of the countryside, tempering of the cold, softness in the wind, and a wiff of spring which gives a lift to the spirit.

I stood for a time and looked to the hazy blue hills. A broad trail of yellow ran out and touched the peaks. This fascinated me.

Coming home a small clump of scrub oak leaves were still intact, whipped by the wind and many winter storms, the little clump still seemed to embrace a glaciated knob of granite on which it grew.

Wilderness music, was there for those who have ears to hear those things, and I'll be listening for more to come.

Donis Hayes had Club Night on Tuesday.

One day this week we called on the Mundis in Bethel and went to see Carl and Lettie Brooks in West Paris.

Clyde and I and Leonas and Ray Holt spent Easter with Ann Holt in Bethel.

Dinner guests of Fred and Rena Curtis on Easter were 24 in number: Mr. and Mrs. Gerald Wyman, Cundy's Harbor; Mr. and Mrs. Albert Curtis, Buckfield and their children; Ray Curtis, Donna, David, Lou Ann, Woodstock; Mr. and Mrs. Steven Cogswell and son, Mr. and Mrs. Gerald Strait and children, Freeport; Junior Heikinen, Farmington, Carl and Betty Curtis and family, Local; Mr. and Mrs. Edward Hodgdon and son, Scarborough.

## WOODSTOCK HISTORICAL SOC.

TO DISPLAY RUGS AT MEETING, APRIL 9

At the next meeting of the Woodstock Historical Society, Saturday, April 9, at the Woodstock Elementary School, the group will examine the craft of rug-making. Two local craftspeople, Carl Brooks and Kay Billings, will demonstrate the current state of the art. The Society has recently been concentrating on crafts of all sorts for summer demonstrations. Involvement was particularly notable with chair-caning last month.

The following useful quote on the past from the late Starr Seguin, the Society's first secretary, is offered:

"We want what our ancestors made and had. It enriches life, and gives us the aroma of a past which is most delightful in retrospect, whatever may have been its strenuous reality."—Wallace Nutting.

m. The subject for the meeting is oxygen therapy.

Anyone interested in taking the BMT refresher course is welcome. The course runs for seven consecutive Thursday evenings beginning April 7 at 7 p. m., at Ledgeview Memorial Home. Contact Chris Healey, Chief of Service, to enroll in the course.

**Safety Tip of the Week** — Spring is a time when it feels good to get out and exercise. Take precautions not to overdo on the first day out doing yard work. Also take precautions to protect your skin from too much exposure to the sun. For those with sensitive skin, especially, it takes a while to harden our skin. No one likes sunburn.

## Telstar R. H. S. News GUIDANCE DEPARTMENT

College bound seniors considering scholarship assistance to finance post secondary training are reminded that many scholarship deadlines are coming up this month. Of particular importance to Telstar seniors are the following scholarships and deadlines: The American Legion Scholarship, 4/15; The American Legion Past Presidents' Parley Scholarship, 4/30; Boise Cascade Safety Scholarships, 4/15; Finlandia Scholarships, 5/1; Kiwanis International Club Scholarships, 4/15; Maine State Employees Association Scholarships, 4/15; Maine State Retired Teachers Association Scholarship, 4/21; Maine Vocational Association Scholarships, 4/22; Odd Fellow & Rebekahs Scholarship, 4/15; Oxford County Retired Teachers Association Scholarship, 5/1; Rumford Community Hospital Scholarships, 4/15; Varsity Basketball Scholarships, 5/1; and Western Maine Industrial Management Scholarships, 4/22.

Telstar students will now have available to them the counseling services of Becky Hardy of the Bethel Area Health Center. Becky will come to Telstar on Thursdays from 1:00-2:00 to counsel students in privacy who may have drug or alcohol problems. She is highly trained to work with individuals with these kinds of problems. Her counseling sessions will maintain confidentiality and when appropriate, she will make recommendations to students to pursue help. It is hoped that an outreach of her work will be an in-school support group to help students deal with their problems.

The C.A.D.E.T. sponsored Mid-Day Media Series are continuing this week with a good number of students participating. This week students are viewing the film series "Straight Talk About Drugs."

This Friday, April 8, 22 Juniors and Seniors will go on a field trip to tour the campus of the University of Maine at Orono. This will be the first time for most of these students to actually visit a university campus as well as attend some classes actually in session. Mr. Hart and Mr. Roy will accompany these students. They will leave Telstar at 8 a. m. returning by 7 p. m.

THIS WEEK AT THE  
MOSES MASON HOUSE

All members and friends of the Bethel Historical Society are reminded that the April monthly meeting will be held this Thursday evening in the meeting room of the Moses Mason House, at 7:30. Featured speaker will be John Davis who will make a presentation on the "Grand Trunk at Bethel."

Director Stanley Howe spoke to Crescent Park School fifth graders on the history of mills and manufacturing in the Bethel area and a group of fifth graders from Rumford visited the museum. Howe also attended the opening of the "Maine Before Statehood" exhibit at the York Institute in Saco April 5 where Dr. Moses Mason was presented as a representative man in Maine at this time, one of ten so selected.

The first contribution of 1983 to the Regular Endowment was received this week from Tony and Eleanor Pugliese. Much appreciation is due them for their generosity.

New members this week are Warren Percival of Andover and Ed Kennett of Locke Mills.

A century ago the "Oxford Advertiser" for March 30, 1883 was reporting that Mr. Wilson Hammons "has sold out his store and goods to Mr. Bisbee, late of Newry, trader." It was reported a week later in the "Advertiser" that Bethel was "sadly afflicted."

The correspondent continued: "Three dead ones are awaiting burial at this writing, Monday, J. L. Dillaway, the blacksmith, aged about 70, was stricken with paralysis last Friday night and died Saturday. He had a shock about two years ago, and was helpless for a long time but gradually recovered the use of his limbs, until he got so he could work quite comfortably at this trade. His wife died about a year ago of the same disease. He leaves an only daughter, Charles Brown, son of David Brown, esq., has been sick of the prevalent distemper, which ended in pneumonia Saturday night last. He belonged to the Odd Fellows Relief, and leaves a wife and child. Also a six year old son of William Grover, 'Robbie', a lovely little boy, and the light of the household."

**FIRST BAPTIST CHRISTIAN SCHOOL SCREENS FOR SCOLIOSIS** — Marge DuBois, L.P.N., and Kathy Kimball, R.N., assist Dr. Steven J. Garbarini (not pictured) at the scoliosis screening at First Baptist Christian School, Mexico. Student Tania Paul is in the center.

Dr. Garbarini, Rumford Chiropractic Center, donated his service

and also took time to explain about scoliosis and the significance of screening for early detection.

The scoliosis screening is given to alert parents to potential spinal problems which could affect the physical development of the child.

This screening is part of the ongoing program at First Baptist Christian School to promote good health and physical development.

precautions set down by the state. The boiler room can be entered from inside the school. You have to go around to the side and enter through a separate door.

Why a person would make a statement like this I do not know? Believe me, the boiler and oil burner are not antiquated.

If you check: (1) Ethel Bisbee School you will find a Carlin flame retention head oil burner;

(2) Crescent Park School, you will find a Carlin flame retention head oil burner;

(3) Andover School, you will find a Beckett flame retention head oil burner. I will let you in on something, the main building at Woodstock has the newest boiler of all these buildings.

I would suggest that you check with the experts but I once heard that an expert was a damn fool five miles from home, and if I have found is quite close to the truth.

Happy hunting,  
Frank A. Gibson, Jr.

**Letters to the Editor**

To the Editor:

In your article dated 28 March, 1983, from Doug Trotter the third sentence down he states: The building is unsafe in a number of aspects, being an old wood frame, three story structure with an antiquated oil burner within the building.

I hold a state of Maine Master oil burner and solid fuel license #711 and am in good standing as of this date. The boiler in this school building is of good make and was installed I believe by Jim Knights. It has been inspected yearly by the State and has passed every year. ASSET MANAGEMENT STUDY  
INCLUDES NATIONAL FOREST

The USDA Forest Service has completed another phase of the Asset Management Program on the White Mountain National Forest. Some 2,970 acres will be intensively studied to determine if they should be retained in federal ownership. The Asset Management Program is a national effort designed to improve the efficiency of managing federal lands and to identify property no longer needed for federal purposes. The objectives of the program are: 1. To sell excess federal property and some public lands that would have a higher and better use in private ownership; 2. To improve the efficiency of government by eliminating the need to manage property or lands that are costly and inefficient and not necessary to serve public objectives; 3. To pay off some of the national debt.

Land in statutorily designated areas on the National Forest System will not be sold. This includes areas in Wilderness, National Recreation Areas, Wild and Scenic Rivers and similar areas designated by law for land under the jurisdiction of the Department of Agriculture. A similar situation exists for lands administered by the Department of Interior. Lands in the National Park System, National Wildlife Refuges, and Indian trusts will not be considered for sale.

For the Forest Service, these types of Congressionally designated lands fall into the first of three categories, lands to be retained in public ownership. The majority of these lands on the White Mountain National Forest in New Hampshire and Maine falls into this category. Currently, this total of lands to be retained is 751,560 acres.

The second category is lands proposed for disposal. These are lands which can be sold under existing authorities and have met criteria for disposal. There appears to be positive benefits from sales of this land. The White Mt. National Forest has identified 260

HISTORICAL SOCIETY'S LAST  
FILM OF SERIES APRIL 13

"The Man Who Corrupted Hadleyburg" a film based on the short story by Mark Twain will be the eighth and last in the series "The American Short Story" sponsored by the Bethel Historical Society with the support of the Maine Humanities Council and the National Endowment for the Humanities in cooperation with the Film Services Division of the State Library. The story focuses on a mysterious stranger who, slighted by the people of Hadleyburg years ago, reappears on the scene to disprove the town's reputation of being "the most honest and upright" in the region. The film is free and open to anyone interested. It will be held in the meeting room of the Dr. Moses Mason House, April 13, at 7:30 p. m.

acres in Winterport that fall into this category.

The third category is land areas which will be studied intensively to determine if they should be retained in federal ownership. This totals 2,970 acres. Of this total, 1,657 acres is in New Hampshire and 713 acres in Maine. These lands consist of mostly isolated parcels separated from the main body of the National Forest.

Maps of the areas identified in the Further Study category are available for review at the Forest Supervisor's office in Laconia, N. H., and at District Ranger offices. Legislation is necessary before National Forest land in the Further Study category can be sold. The USDA will soon propose legislation to authorize sale of those portions of the National Forest System which ultimately may be found suitable for possible sale of the lands in Further Study category is not planned until the necessary legislation is enacted.

Protection and management of the lands within the Further Study areas will continue as planned until a decision is made as to their disposition.

**WOODSTOCK CLASS VISITS**

**HISTORICAL SOC. MUSEUM**

Miss Ellen Havenstein's first grade class at Woodstock Elementary School visited the Woodstock Historical Society Museum last Thursday. Society President Mary Billings and Curator Larry Billings explained the exhibit. The museum is in the school annex in the room Miss Havenstein taught in for many years. The students enjoyed seeing the Bryant family pictures, Robert Crockett's portrait (the Society's new building came, of course, from Mrs. Annie Crockett), and tools and household items of every description. This is the third Elementary School class to visit the Museum this year, despite cold weather and lack of heat. Others have received classroom presentations from Society members.

The students were the first to receive copies of the new Society postcards of Lake Christopher chosen by Past-President Eva B. Twitchell from the collection of Richard Fraser.

## SUNDAY RIVER SKI CLUB ELECTS OFFICERS FOR 1983-84

The Sunday River Ski Club held its annual meeting Saturday, April 2, at McKee's Restaurant on the Sunday River Ski Resort Road in Newry. The following officers were elected for the 1983-84 season:

President: Arnold Alexander, a lawyer from Marblehead, Mass., who has been an active ski club member for several years. He and his family spend many week ends in the winter at the South Ridge Condominium at Sunday River.

Vice President and Racing Chairperson: Joan Putnam of Bethel, is a member of the staff of the Bethel Inn and is secretary and club representative of the Maine Alpine Racing Assoc.

The Sunday River Ski Club is a social service organization whose goals include the encouragement, advancement, and improvement of the sport of skiing through the development of the skill of skiing.

To which end, the club has sponsored several races and provides funding for area children for ski lessons and racing.

It was voted at the annual meeting that the following donations would be given: \$100 to the Bethel Emergency Ambulance Service (B.E.A.S.), the prime ambulance service for the greater Bethel area; to the nearest hospitals, 25 miles away. A second donation of \$1,000

## FOURTH ANNUAL POLE, PADDLE &amp; PAW RACE HELD MARCH 26

The Saturday, March 26, running of the April Fool's Pole, Paddle and Paw Race was a highly spirited event despite the apparent lack of snow that discouraged less hardy participants and spectators.

Nine teams kicked and glided wildly across dry grass at Sunday River Ski Touring Center at the sound of the whistle signaling the start of the race and the celebration of spring. Along the 2 1/2 mile trail to Artist's Covered Bridge the racers found snow, ice, and bare ground. Four times they were instructed to remove their skis and "portage" across pine needles and rocks to the next snow covered section of trail.

Applications and information are available at the Ranger Station Monday through Friday, 7:30 a. m. to 4:30 p. m.

Bids are due on April 20 at the Forest Supervisor's Office in Laconia, N. H., for a site preparation contract opportunity in Chatham, N. H. A tour of the areas will be given on April 14. Those interested will meet at the Shaw General Store in Stow, at 9 a. m. In early May, there will be a contract opportunity for planting 68,000 softwood seedlings on 156 acres on the Evans Notch Ranger District. The planting of softwood seedlings is being increased to replace softwoods lost in the December, 1980 windstorm.

Forest Service Wildlife Biologist, Jim McGowan, reviewed the Wildlife Demonstration Area in Mason last month, and has made recommendations for future management. Treatment of hardwood regeneration and release of apple trees in a 17 acre opening will begin this spring.

Uneven-aged management of forest stands is beginning to be applied again on the White Mountain National Forest. Managed uneven-aged forests are characterized by trees of many ages and size classes. Trees are harvested singly or in very small groups. Two primary areas where uneven-aged management will be applied are areas where the visual quality of the landscape is a major concern, and areas of spruce, hemlock, or hemlock-hardwood below 2,500 feet in elevation selected to be managed as deeryards.

Many questions have been asked about news reports concerning the President's Asset Management Program. A map of the study areas and additional information are available at the Ranger Station.

## New Legislative District

The Legislature was very busy this week with double sessions being held in the morning, and again in the afternoon.

The Reapportionment Plan to redraw district lines was passed in the House. The legislation takes Woodstock, Andover, Summer, Hartford and Roxbury out of my district and replaces them with Lovell, Waterford, Albany, Avon, Weld and Rangeley. I voted against this plan.

## Boat Tax

There have been several threats from a number of fishing fleet owners to base their boats outside Maine if forced to pay full property tax when new assessment year begins on Friday. My committee was requested to come up with a taxation plan to keep these jobs in Maine.

The legislation that was passed would only affect commercial fishing boats with a net weight of 10 tons or more this year.

Starting next year, most boats, except for nonmotorized boats less than 20 feet long will be taxed on a scale based on length, age and use of vessel. The tax range would be from \$8 for a motorboat less than 12 feet to \$450 for a boat longer than 65 feet.

**SUNDAY RIVER CANOE RACE HELD LAST SATURDAY**

April Fool's Day came a day late to Bethel this year as 15 canoes and twice as many people raced down the Sunday River last Saturday, over rocks, around submerged trees, and six miles of ice water.

Only a few felt the water's cold temperatures from head to toe. Most of the competitors knew through the wet feet of wading over gravel bars what the temperature was. The second annual Sunday River canoe race was a fun day for all contestants and spectators. Organizer Tim Carter was delighted with the sunny day. He had only hoped for higher water.

The fastest boat in the race went to a single, Bob Martin, who raced the river by himself for a time of 45:38. Next fastest boat was John Morris and Matt Payson with a time of 45:15. The third fastest boat went to a familiar family team of Julie and Sonny Hastings with a time of 46:48. Coming in second in the family class were Becky and Tim Carter with a time of 52:27.

The largest competition was in the recreational canoeist, those just out for the fun of it or canoeing with recreational boats, not racing boats. In the mixed class, Saranne Taylor and Peter Colburn came in first with a time of 51:05. Stephen Rhodes and Sherry Holmes came in second with a time of 52:39. In the men's recreational class only 12 seconds separated the first place of Chris and Derrick Decker (50:20) from second place of Tony Lacroix and Jeff Parsons (50:32). Third place and definitely best dressed went to Steve Wight and Greg Wight (52:24).

With no opponents in the women's class, JoDee Carter and Jane Chandler won first place hands down (and feet down into the cold water) with a time of 56:28. Eric Wight and Jeff Smith had an excellent race in the junior class. They were the first boat out and only the second to arrive with a time of 54:23. Too bad no others entered their class.

Everyone seemed to enjoy themselves, even Andy and Kate Wight who blamed their aluminum boat for their position of last. David Thurston of the Sudbury Inn hosted the awards ceremony. A dinner for two at the Sudbury Inn was won by Gary Bor and Robert Dionne.

The net result of this long-term support, according to Engineering and Science dean Dr. James Clapp is to make the chemical engineering department "the most stable" discipline in the college.

ness world, and being unable to house all his patients in his home, Dr. Gehring encouraged some of his patients to incorporate and begin construction of the Inn. In the architecture of what is now the Main Building, one can see its real purpose subtly revealed: the Inn's front rooms over the lobby were arranged as suites for the comfort of Dr. Gehring's patients, while the back rooms were single rooms designed primarily for nurses and attendants. The Inn's golf course was created by the doctor's patients who would "rough out" the course during the day as part of their work therapy.

The Bethel Inn has grown into a village within itself. Now comprised of five buildings (all built in the Federal or Colonial tradition) not including a small cottage on Songo Lake, the Inn is open year-round and employs many people in the Bethel area.

Much of the original Hitchcock furniture is still used on the property as well as some original Syracuse China which was designed and made exclusively for the Bethel Inn.

The Inn prides itself on offering a wealth of activities including golf, tennis, lake and pool swimming, sailing, as well as many winter-related activities. The staff of the Inn would be pleased to conduct tours of the Inn. Further information can be obtained by contacting the Bethel Inn at 824-2175.

main unfilled. Two vacancies each exist on the Budget Committee and Planning Board. Anyone interested in serving in these areas should contact the Town Office or any member of the Board of Selectmen.

Two concealed weapon permit applications were acted upon before moving to reestablish the Equipment Operator-Laborer II position at the Town Garage (nicknamed "the grader operator") to full-time status. For several months last summer and fall after resignation of the incumbent, the position was left vacant to see whether a cost savings could be achieved. The results showed that the money saved in wages was more than offset by the expenses of hiring part-time labor and the number of projects, including traffic sign relocation and road repairs, that were left incomplete.

In other business, the Board reviewed two invoices, one from the Town's attorney regarding a town line question currently in litigation and the other from S.A.D. 44, regarding the services of the Main Street school crossing guard. The concept of having a student or students from the University of Maine at Farmington as work study students, at no cost to the Town, was approved. The Manager was directed to draw up a list of possible projects to be done by the students for Board approval prior to commitment.

A request was reviewed from a Dixfield resident to open a gravel pit on his land off Route 232 in Bethel. The matter was forwarded to the Planning Board for careful consideration of all factors which, in turn, will be reported to the Board of Selectmen before a decision is made.

The Selectmen, acting as Sewer District Trustees, moved to set the rate for past due sewer accounts at 15% per year as of April 1, 1983. This action was taken pursuant to Title 36 M.R.S.A. section 505 that ties the interest on delin-
